Phantom Inventory AI Assistant

Hello! Ask me about your inventory alerts, response rate, resolution rate, recovered sales, ROI, or other KPIs.

what is the response rate and how is it calculated

Dashboard fact: The current **Response Rate** is **83.92%** for the selected dashboard period, with no retailer, category, or vendor filter specified.

Calculation:

Response Rate = Responses Received / Alerts Sent

Using the dashboard values:

$4,196 / 5,000 = 0.8392 = 83.92\%$

what is the recovered sales for target dairy

Recovered sales for **Target – Dairy** are **\$34,092** for the selected dashboard period.
